

Every Little Bit Helps

Inlet completely blocked by leaves, twigs, and debris

Township worker clearing inlet

Don't pile leaves, twigs and debris near Township inlets. When leaves get in the inlets, the inlets do not function properly. This can cause erosion and stormwater problems in your area as well as your neighbors.

Every little bit helps. Try using the Townships Leaf recycling center.
For more information call (610) 408-3620.

Inlet that's clear of all leaves, twigs and debris

Help yourself and your neighbors out by removing all material and keeping all inlets and street gutter lines clear of leaves, twigs and debris.

Because ***Every little bit helps!***
